You're Not Alone.

And honestly? It's probably not your fault.

Maybe you went through a divorce. Lost a job. Had medical bills pile up. Or maybe you just didn't understand how credit worked when you were 18.

None of that makes you a bad person. It makes you human. And you deserve a second chance.

Did You Know?

79% of credit reports contain errors. Wrong balances, accounts that aren't yours, outdated info. These mistakes are keeping you from getting approved.

The good news? By law, if creditors can't **prove** information is accurate, **it must be removed.**
That's your legal right.

Hint: We don't do what everyone else does.

Why Most Credit Repair Fails

And why you might be skeptical

Most credit repair companies use the same tired approach: send generic dispute letters and hope the bureaus believe them.

2 out of 5

people who tried credit repair say it didn't work

That's because disputing what you **see** on a credit report rarely works. The bureaus just verify with the creditor, and nothing changes.

THE DIFFERENCE

✗ TRADITIONAL

- Template letters
- Focus on visual errors
- Hope it works
- Monthly fees forever

✓ ASAP METHOD

- Demand documentation
- Find legal violations
- Build a real case
- One flat fee

"Other companies dispute what they see.
We challenge what they can't prove."

How We Actually Get Results

Documentation proof over visual proof

We don't just say "this is wrong." We force creditors to **prove everything** — contracts, payment records, chain of ownership. Most can't.

1

Deep Credit Analysis

All 3 bureaus, line by line. Find errors others miss.

2

Request Documentation

Contracts, statements, applications — we demand the proof.

3

Build Your Case

Find discrepancies, missing signatures, legal violations.

4

Demand Removal

Present evidence to bureaus. No proof = permanent deletion.

Results in 30-90 Days

Average completion: 2-4 months

Real Results. Real People.

YEARS

Real Case: Diana

Needed SBA loan for her business

Was about to pay a \$4,200 collection. We said "Don't pay — let us dispute it first." Creditor couldn't provide documentation.

✓ REMOVED IN 24 DAYS • Saved \$4,200!

"They removed 12 negative items in 6 weeks. I went from 520 to 689. Finally buying my first home!"

— Maria T., Houston

"I started ASAP because I saw too many people getting ripped off by companies that didn't deliver. Your past doesn't have to control your future."

— Joe Mahlow, Founder & CEO
